Untitled

Dear Mr/Mrs Sir/Madam

Thank you for taking the time to contact us regarding our products.

We thoroughly check all of our ingredients including any processing aids and enzymes, to ensure that they are vegetarian. The only product that we produce that is not suitable for vegetarians has been fortified with omega 3 derived from fish and is clearly labelled as 'not suitable for vegetarians'.
We follow all relevant legislation and the Food Standards Agency's guidance on labelling products as suitable for vegetarian.
Flour naturally has enzymes present and so does yeast. Sometimes we add additional amounts of enzymes to balance out those in the flour, as this gives a more controlled and consistent dough. Any enzymes we use are suitable for vegetarians.
Alcohol is present in very small amounts during the process but is driven off when the bread is baked. The possible sources of the alcohol are as a result of yeast fermentation and residual amounts in the vinegar used in some recipes. The vinegar is derived from sugar beet molasses.

If you have any further queries please do not hesitate to contact us.

Yours sincerely,
